Description

Land with rustic article measuring 6,280 square meters, with good views and with a borehole with abundant water for sale. So electricity is already on site, and it has its own water supply, which makes this an interesting investment location. According to the current PDM, it has feasibility of construction of a family home on the highest part of the land. The views from here are really fantastic, as we look into the valley and onto the peaceful surrounding landscape of rolling hills covered in lush green. The plot is next to a tarmac lane, which carries only very little traffic, as there are hardly any neighbors as most of the houses in the vicinity are only used sporadically.
